Local Business Woman Revolutionises Fundraising!

Local business woman Tammy Roberts has managed to build a thriving business which combines work and pleasure. Through her wellness clinic at Erina, Tammy has the pleasure daily of making a positive impact on people's lives.

However it is through her online business she has discovered a way to impact the lives of many, many more people (other than those she see's through the clinic). Many more than she could ever have hoped to.

"I have always admired people that donate large sums of money to charity such as the late Kerry Packer, John Singleton and Bill Gates just to name a few, I have long been looking for a way my business could do its bit. The opportunity has finally presented itself since we have made some very significant changes to our online shop. Through the introduction and integration of a fantastic piece of software into our shop we are able to allow charities, schools, churches and sporting bodies to direct traffic to our online shop and once there, any purchases made will generate income specifically for the charity from where the purchase originated .

It has taken an inordinate amount of time and money to get this right. We have had many highs and lows while getting the software to work the way we wanted and needed it to. The patience & support I have had from my staff and IT people has been invaluable and without them we would never have got this off the ground the way it needed to be. There were many people that told us to give it up, you're wasting your time they would say, but we knew the benefits of getting this right were immense.

This is going to revolutionise the fundraising potential for all the charities and not for profit organisations around the country that are in a constant battle for donations and benefactors. It truly is win, win".

Any Charities, schools, churches or sporting clubs that want to participate in the program should contact Tammy Roberts through the website at www.herbalist.net.au or phone her clinic on 02 4305 2891 or mobile 0429 436508.
